

Irish Consider New Move

Sinn Fein Consider Putting Out Manifesto

Step Might Be Considered Preliminary To Resumption Of Hostilities.

Dublin, Ireland, Aug. 20.—Sinn Fein today seriously considered issuing a manifesto to the world, pointing out the alleged unfairness of the British peace offer. Members of the Dail Eireann in private conferences, discussed this single alternative to counter proposals. The issuance of such a manifesto would be considered preliminary to a resumption of hostilities.

RAIL LABOR BOARD APPROVES SHOP CRAFT RULES

Rules Railroads Need Not Pay Overtime On Work Necessary On Sundays Or Holidays.

Chicago, Ill., Aug. 20.—The United States Railroad Labor Board yesterday approved in effect the seven shop craft rules relating to overtime payment, as provided in the national agreement of the wartime railroad administration, but directed that the railroad need not pay overtime for absolutely necessary work performed on Sundays and holidays.

ANOTHER WAGE CUT IS ANNOUNCED BY U. S. STEEL CO.

New York, Aug. 20.—Judge Gary, chairman of the board of the United States Steel Corporation, yesterday announced a further cut of 20 per cent. in the wages of steel workers.

RAILROADER KILLS WAITRESS: ARRESTED

Stuebenville, Ohio, Aug. 20.—Mrs. Nellie Fuller, aged 33, waitress in a restaurant conducted by W. B. Jones, Market street, this city, was shot and instantly killed by Samuel H. Ingle, aged 37, of Wellsville, Ohio, a conductor for the Cleveland & Pittsburgh Railroad Company, shortly before 7 o'clock last night. Four bullets were fired, three taking effect. One lodged in the chin and two in the breast. Ingle was arrested.

Police state Ingle shot Mrs. Fuller when she refused to heed his objections to her returning to her family in Cleveland.

GERMANY MAY APPEAL U. S. PEACE TREATY

Many Of The Issues Of German-American Treaty May Go To International Arbitration Board.

Berlin, Aug. 20.—Germany may appeal many of the issues contained in the German-American peace treaty to international arbitration. The treaty, it was learned, does not contain a declaration of Germany's guilt in starting the war. Germany would have flatly refused to sign had such an admission been included.

25 DOLLAR DAY BALLOONS SENT OUT SATURDAY

For the purpose of advertising The Progress and Clearfield's big Dollar Day, The Progress liberated twenty-five toy gas balloons at the Driving Park just before the booster ball game started this afternoon. The balloons each bore a tag which entitles the finder thereof to one year's subscription to The Daily Progress, provided the balloon is found and the card attached thereto is brought or mailed to the Progress office by Dollar Day, which is scheduled for Friday, August 26th.

We don't have to go up in the air to tell you that this Dollar Day is going to be the biggest merchandising event ever staged in Clearfield, but we will slip that information to you here and now.

If you have any doubt as to the truth of our statement just wait till Dollar Day and look the crowds over when they come to town Friday to take advantage of the big bargains to be offered by every live merchant in the town.

Every merchant in the town may not be participating in Dollar Day, but we can assure you every LIVE merchant is. Look at the stores in on this bargain affair, their appearance will tell the story.

But to get back to those balloons. They were cut loose as stated above and each one is worth \$4.00 to the finder of the balloon and tag or card it contains. When you find it, mail or bring it to Clearfield on Dollar Day and we will inflict The Progress on you for the coming twelve months.

DUTCH KATIE FUND GROWS

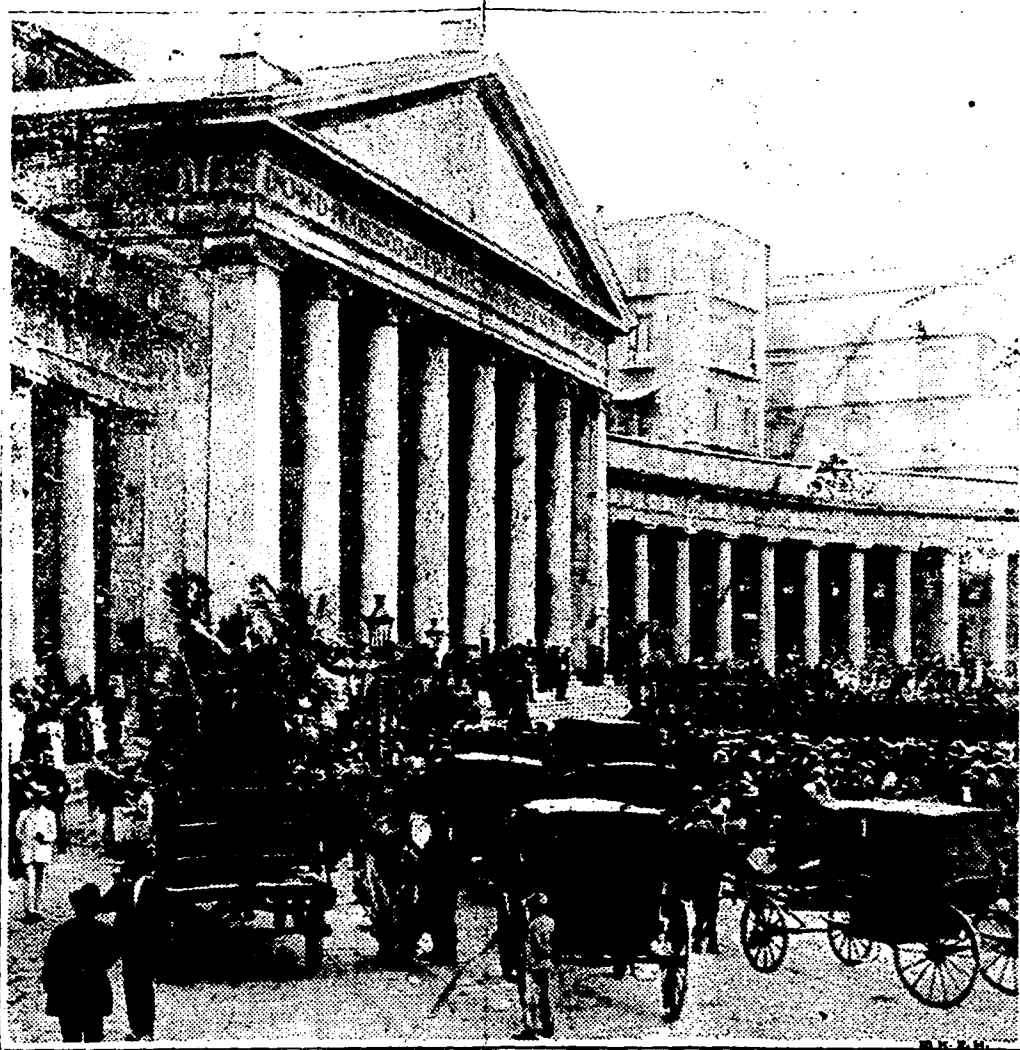

Mrs. Philip Lucas of West Side, who is soliciting for the "Dutch Katie Home" fund, succeeded in gathering in \$20.50 since her last report. The money was deposited in the fund at the Clearfield National Bank and is available for the old woman when she starts to build her home on ground donated for the purpose by Alex Spangler on the West Side.

Mrs. Lucas is still collecting and anybody who feels like contributing to this charitable fund may hand their contribution to her.

The contributions acknowledged herewith are:—
Gordon Bros., New Kensington \$1.00
Cash 19.50
Total \$20.50

ANTI-MEDICINAL BEER BILL NOW UP TO VOLSTEAD

Washington, Aug. 20.—Whether the nation will be flooded with beer soon depended today on Andrew J. Volstead, author of the Prohibition Law. Here is the situation today:

Volstead opposed the Stanley amendment to the Anti-Medicinal beer bill which forbids dry agents from hunting liquor unless armed with search warrants. This would hamper prohibition enforcement.

Unless Volstead yields on this point his opposition will hold up the whole Anti-Medicinal Beer Bill until it is killed by Congressional adjournment next Thursday.

In that case the Internal Revenue Bureau will proceed to issue its regulations governing the sale of beer for medicinal purposes.

GARAGE GOES UP IN SMOKE EARLY SATURDAY

The frame garage of Joe Pratt, located on the rear of his property on Daisy street was totally destroyed by a fire which was discovered about 2:30 o'clock this morning. A Nash quad and other valuable personal property was also destroyed with the building. The fire, the origin of which is undetermined, was discovered by a party of local young men returning from Phillipsburg. The alarm was given and the firemen were quickly on the scene, and confined their efforts to saving surrounding property.

Mr. Pratt is out of town and whether or not he had the property insured cannot be determined until his return home. The loss is placed at \$2,000.

BANK HOLD-UP IS FRUSTRATED

Harrisburg, Aug. 20.—An attempt to hold up the People's Bank of Enola, a railroad town on the Cumberland Valley short of the Susquehanna river, opposite this city, was frustrated late yesterday by H. M. Hoover, cashier, who ran out of the rear door and called for help when a man drew a gun on him and demanded cash.

JUDGES' REPORT OF PHILIPSBURG BAND CONTEST

For the benefit of those interested in the band contest at the Fireman's Convention at Phillipsburg on Thursday afternoon, first prize at which was easily carried off by the American Legion Band, we give herewith the findings of the Judges who made the awards, and the reasons therefor, which we take from the Phillipsburg Journal of last evening:

The judges' report of the contest follows:

Band No. 1—Curwensville—Points 61
"Bohemian Girl."

Opening movement: good, clarinet cadence, good; alto out of tune in this movement.

Second movement: Andante, cornet one false note. Alto out of tune. Allegretto movement: baritone excellent, clarinet, second cadence good.

"Hearts Bowed Down," cornet solo, good; baritone one false note. Accompaniment good.

Band No. 2—Houtzdale—Points 57
"Home Circle."

Opening movement: good, basses good.

Second movement: Cornet one false note; clarinet cadence good.

Finish: Last few notes one beat and a half short of full length. Not in same class as No. 1.

Band No. 3—Clearfield—Points 68
"Isabella."

Opening movement: Excellent; last few measures of movement, baritone could do with more power.

Second movement: Good; allegro con brio, trombone too rough, rest of band good. Allegro sopra: Piccolo good, band excellent, basses good. Piu mosso.

Finish: Excellent. Outclasses No. 2. Contest was judged on the following points: Attack, tone, tune, ensemble, tempo, expression, finish, ten to each point, making a possible score of 70; making deductions for mistake and additions for excellence in solos, etc.

WOODLAND RESIDENT DIES

George Snyder, of Woodland, whose critical illness was mentioned in the Woodland items yesterday, died at his home on Railroad street at 4 o'clock this morning.

RE-ORGANIZATION OFFERED NICKEL ALLOY COMPANY

A proposition looking to the resumption of operations at the Hyde City steel plant has been made to the stockholders and creditors of the Nickel Alloys Company by William J. Webster and Leland Lyon, of the present stockholders.

The proposition, which is quite lengthy and presents in detail a plan for the reorganization of the concern and the taking over of the plant in its entirety was put up to those interested some ten days ago and action on same must be taken on or before September 5th.

Plan Contemplates \$2,500,000 Corporation.

The plan contemplates the formation of a \$2,500,000 corporation, with the authorization for the issue of first 8 per cent. debenture bonds in the sum of \$400,000 and second 8 per cent. debenture bonds in the sum of \$600,000.

For the transfer of all the assets of the Nickel Alloys Co., the corporation will agree to pay in cash such reasonable claims for administration expenses as the court may fix, together with all claims for labor due at the time of the appointment of a receiver.

The corporation will satisfy the present first mortgage against the concern for \$150,000 and the bonds securing same by issuing new bonds to the holders thereof, and will issue stock in the new concern to all legal general creditors against the estate to the amount of \$350,000. Will also issue to all of the stockholders of the Nickel Alloys Co. stock in the new company to 50 per cent. of their present stock holdings.

A claim of the Chatham & Phoenix National Bank to the amount of \$100,000, representing moneys due on trust certificates, will be adjusted by the selling of second debenture bonds.

Big Firm To Back Operators.

To enable the new corporation to raise the necessary additional capital required to operate the plant and to secure the necessary expert management so as to enable the plant in the future to be operated in a successful manner, it will be arranged to have the British American Nickel Corporation Limited, one of the largest producers of nickel in the world, to become interested in the operation of

Republican And Democrat Hold Party Caucus

REPUBLICANS PICK TWO FOR TICKET LEADERS

Names Of Blair Sykes And Earl E. Smith Proposed For Head Of Borough Ticket.

The Republican caucus was held in the Arbitration room of the Court House and the largely attended meeting named the following candidates to be voted for at the primary on Sept. 20th:

Burgess.
Blair Sykes.
Earl E. Smith.
Justice of Peace.
John M. Bain.
School Directors.
Mrs. Elizabeth Murray O'Laughlin
Mrs. Alma B. Thompson.
Mrs. Fred B. Irwin.
Woods M. Neff.
John R. Triebley.
M. L. McQuown.
Dr. W. S. Piper.
Dr. J. M. Quigley.
Auditor.
W. A. E. Leitzinger.
Tax Collector.
Ed R. Taylor.
High Constable.
W. B. Holmes.
FIRST WARD
Town Council.
J. F. Fletcher.
F. M. Ellis.
Assessor.
W. A. Chase, Sr.
Judge of Election.
C. L. Torrence.
Inspector.
Charles Franson.
SECOND WARD
Town Council.
Howard Stewart.
John E. Herdman.
Assessor.
John M. Hastings.
FIRST PRECINCT
Judge of Election.
T. J. Norris.
Inspector.
O. Ray Chase.
SECOND PRECINCT
Judge of Election.
Fred J. Norris.
Inspector.
Harvey Mann.
Registry Assessor.
John Hughes.
THIRD WARD
Town Council.
Harry A. Tate.
Assessor.
Reuben Knarr.
FIRST PRECINCT
Judge of Election.
Wayne Burge.
Inspector.
T. Scott Adams.
Registry Assessor.
Daniel Barger.

Town Council.
O. E. Poorman.
W. E. Mather.
Assessor.
Geo. L. Barger, Sr.
Judge of Election.
Mrs. Stewart Jones.
Inspector.
Mrs. Clarence Aikie.

DEMOCRATS SELECT J. FRED WEAVER TO HEAD TICKET

Stands Unopposed At The Present For Primary Nomination As Burgess.

The Democratic Borough caucus was held in the Borough building last evening and attracted a large crowd of "the untutored." The following ticket was suggested for the members of that party to select from at the primary election on Tuesday, September 20th.

Burgess.
J. Fred Weaver.
Tax Collector.
F. S. Gilliland.
Paul McDermott.
Justice of the Peace.
Joseph F. John.
J. A. McMurray.
Auditor.
Bowman Brown.
School Director.
E. V. Brown.
O. T. Tobias.
Dr. Lewis C. Rowles.
Dr. F. D. Leopold.
FIRST WARD
Town Council.
J. Frank Snyder.
Dean H. Bloom.
Assessor.
Foster Kyle.
Judge of Election.
M. S. Thompson.
Inspector.
A. J. Sharbaugh.
SECOND WARD
Assessor.
Charles E. Hile.
Town Council.
J. S. Beahan.
FIRST PRECINCT
Judge of Election.
H. C. Shillenn.
Inspector.
J. M. Malloy.
SECOND PRECINCT
Registry Assessor.
Ed C. Bowman.
Judge of Election.
Henry Linn.
Inspector.
S. J. Bonner.
THIRD WARD
Town Council.
J. A. Breth.
H. J. Hoover.
Assessor.
A. Wright Cowder.
FIRST PRECINCT
Judge of Election.
Wm. J. Marsden.
Inspector.
Clarence Kramer.
Registry Assessor.
Geo. C. Kramer.
SECOND PRECINCT
Judge of Election.
Harry Evans.
Inspector.
Paul T. Flaherty.
FOURTH WARD
Town Council.
F. R. Adams.
H. H. Smith.
Geo. R. Brett.
Assessor.
John M. Bowman.
Judge of Election.
Hugh Milligan.
Inspector.
J. E. McFarland.

How Lamprays Lay Eggs.
Lamprays are eel-like residents in the ocean that run into the fresh water at the mouth of rivers in the spring and build the nest in which their eggs are deposited. They pick out the pebbles in the bottom of the river, using the suction power of their large mouths to dislodge the stone, and deposit eggs in the spot selected.

Corn With His Dots On
From an interview: "Frankly I am a homebody," he confided. "I have never set foot outside my native shoes." (Editorial comment.)

Containers Expensive.
It is computed that from a tenth to a quarter of the cost of foodstuffs in the United States goes to pay for crates and other containers that are thrown away instead of being used a second time.—Brooklyn Eagle.

The Wonderful Tigris.
From Baghdad to the sea, more than 600 miles, the Tigris is navigable for any boat not drawing more than about eight feet. River steamers go to Bagdad, though they often run aground on the shifting banks.

ODDS AND ENDS AND THINGS

"By Skinny"

Frank A. Vanderlip, former president of the National City Bank of New York City, who is in Germany studying the industrial and financial situation, was quoted as saying that he believed Germany would be unable to meet the Allied indemnity demands. Mr. Vanderlip was quoted as saying: "The whole world cannot overcome the present economic crisis until the peace treaty is revised."

Wonder if Frank is going up against some German propaganda.

Even if we did finally have to reimburse Colombia to the tune of \$25,

000,000 for the immortal Teddy's coup in swiping the Panama Canal Zone, it looks like a darn good investment even now. In the seven years that the Panama Canal has been in use, 13,415 vessels, carrying 51,600,000 tons of cargo, have passed through the waterway.

During the last year, 2,843 ships, with 11,000,000 tons of cargo, passed through the canal.

More than 50 per cent. of the teeth now being extracted could be saved by proper treatment, Dr. J. F. Biddle of the University of Pittsburgh told the National Dental Association at Milwaukee.

"Teeth are often the source of bodily ailments, and their extraction has in some instances resulted in almost miraculous cures," Dr. Biddle said. "However, we must not lose sight of the fact that many times teeth are sacrificed with the hope of curing almost every disease known. Undoubtedly abscessed or pulpless teeth should not be permitted to remain in the mouth if they cannot be put in a healthy condition. On the other hand, all teeth in which pulps have been removed should not be condemned."

Different people look at things differently, and it is well that they do. Wouldn't this be an awful country if we were all Republicans. Here we have Mrs. Hannah Stone Preble, of Marblehead, Mass., who, with her husband, is celebrating the 70th anniversary of her wedding. Mrs. Preble says "the girls of today are brazen jades," and "I do not agree with the woman of today that short skirts, bobbed hair and high-heeled shoes are conducive to good health. Low heels for shoes, long skirts and regular hours are the best rules for health which I can give."

On the other hand Mrs. Antella Packard, another Massachusetts dame now four score and four years old, takes issue with Mrs. Preble and says she considers "short skirts and bobbed hair perfectly proper. That we should all live with the times. The world moves all the while."

"If people continued to live the way they did years ago, what enjoyment would they have? Present-day conditions are best I've known in eighty years. I believe in progress. People are only just beginning to live. Prim conservatism used to attack us just as they are now attacking the dress of today, or anything that isn't of the old standpat and dead-from-the-clin-up order. It has been said that

a man is no older than he feels. That applies to a woman as well."

We are firm in our belief that insurance agents are human and think they have as much right in the community as many of the other things we have to guard against in the daily walks of life, but we find there are people who do not agree with us at times. We found one of these latter gentlemen in his office yesterday just after he had succeeded in ridding himself of the third insurance solicitor for that busy afternoon and, while we don't like to knock, we do feel like passing along a part of what the poor pestered devil delivered himself of, and which he considered settled the question to his satisfaction. He ended his wail by remarking that the only way to cheat an insurance company is to die young, but then you can't enjoy the money that is forthcoming. A silk-lined casket looks good, but you can't see the lining when you are the corpse. If you desire to make a profit off insurance the only thing to do is to become an agent and pester all your friends by reminding them that they are going to die some day. There may be some truth in it at that.

Galosh Not Modern Footwear.

The modern galosh is but the grandchild of a long line of strong, sturdy ancestors from the boots of Captain Kidd down. The boot wearing fever got so bad in England once that parliament had to be petitioned to restrict the making of boots. "The merchant and mechanic walk in boots," so read the complaint, and "many of our clergy in shoes and galoshes. University scholars maintain the fashion likewise. Attorneys, lawyers, clerks, serving men all delight in this wretched rantonness."

Earthquakes at Sea.

An eruption occurring at sea is called an earthquake and the chief effect is the production of huge waves and violent commotion of the water of the sea. In 1854, during an earthquake at Siroda, Japan, the waters of a bay were first agitated, then retreated, leaving the bottom bare in places where the water had been 30 feet deep. A wave 30 feet high then rushed in and swept everything in its path. Other earthquakes have destroyed cities and bipping; part of the destruction in the Messina earthquake was caused by a wave produced in this way.

Success in a Nutshell.

"The talent of success is nothing more than doing what you can do well, and doing well whatever you do without a thought of fame.—Longfellow.

NICKEL-ALLOYS CO.

(Continued From Page One.)

the new corporation to be formed and through their financial assistance and valuable knowledge the plant can be operated successfully. The British-American Nickel Corporation will advance immediately to the new corporation, on the acceptance of this offer, etc., \$150,000 in cash and accept first debenture notes of a like amount, and, later on the happening of certain conditions, they will advance an additional \$50,000, surrender their first notes for \$150,000 and accept second notes for \$200,000 and will also receive certain common stock of the new corporation. They will also sell to the new corporation on four months credit, 300,000 pounds of nickel, accepting notes in payment, thereby giving the new concern ample material and working capital with which to successfully launch its new enterprise.

The service of Victor Hybinette, possibly the leading metallurgical expert, who will take charge of the organization of the new company for a period of a year, will be secured.

In addition to the issuing of the above bonds and stocks there will be issued to Messrs. Webster and Lyon stock of the new corporation to the extent of \$800,000, which will be used by them in the following manner:—

Stock to the amount of \$250,000 will be placed in trust for Victor Hybinette, in consideration for which he will transfer patent rights necessary to the operation, with the stipulation that the new corporation will earn during the first five years six per cent on its issued capital. If this is not done the \$250,000 worth of stock will not be transferred to Mr. Hybinette.

There will be issued to the British-American Nickel Corporation, as an additional consideration for the \$200,000 advanced and for their influence and services in connection with the operation, etc., stock of the par value of \$450,000.

There will be given to the brokerage firms or bankers selling the debenture bonds of the corporation stock at par not to exceed \$100,000, and if less amount is required the balance to revert to the corporation.

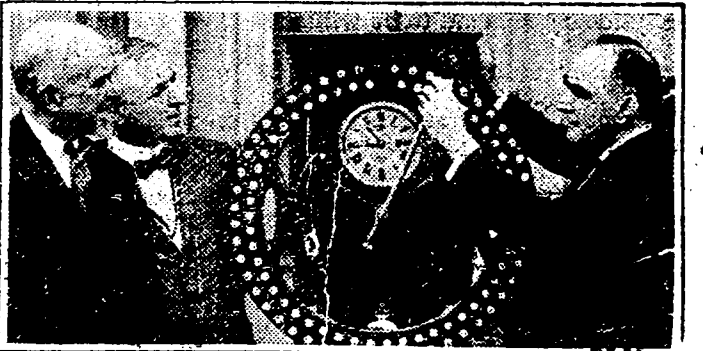

Messrs. Webster and Lyon stipulated that they will neither receive nor retain a single share of stock of the corporation for their services other than what they may be entitled to in conjunction with other creditors. Their object, they allege, being to enable the Nickel Alloys Co. to be refinanced so as to protect the creditors, stockholders and bondholders.

Uneven Is the Hem

It looks like the old days of standing still and having a skirt hanging unevenly at the sides or at the front—this studied carelessness is not a matter of abandon. The new soft materials, draped in classical or middle-age fashion are responsible for the disregard of the rigid straight hem.

Punch the Clock, Mr. Congressman

Representative Kiser of New York is pushing his bill to have congressmen paid on an attendance basis. He would have a time clock with a card for each member of Congress, installed at the Capitol he is, on the right, demonstrating such a clock to other congressmen.

Festival of the Quail.

In the Mediterranean, no bird is better known than the quail. Twice a year he passes over the great inland sea. His coming is quite a festival, and many an outstanding bill and many a peasant's overdue rent is paid at his expense.

Easy to Discover.

"What is space?" asks a hen in a daily paper. If the writer only take the trouble to sit by two stout women in a crowded car he would perhaps stop asking silly questions.—London Punch.

A COMMUNITY ASSET

The performance of the American Legion Band at the recent Philipsburg Firemen's Convention, which won for them first prize in the band contest and the plaudits of those who attended the contest, is something that should justly be appreciated by the people of Clearfield. Those at the head of the American Legion Band have worked hard and faithfully to make it one of the best in this part of the state. A good band is a community asset. The community at large gets the benefit from such an organization, both in the way of the credit it reflects upon the community, and the opportunity it gives the people to hear good music.

Now comes another seeking to wrest the Einstein theory laurels from their present holder. The latest to toss his hat into the ring is Hudson Maxim, an inventor. We might suggest to Maxim that while the Einstein theory, properly studied and assimilated, might kill in the long run, weapons of war, creations of his brain are far more effective. Einstein's theory would only drive an ordinary mortal crazy in the endeavor to understand it, while Maxim's inventions would knock him cold.

The "Wets" apparently have made a breach in the Solid Dry Ranks in Congress. Not that it amounts to much, but it must be, to say the least, just a little bit humiliating to the "Drys" to be forced to give and take with the "Wets." The Prohibitionists are said to be willing to have the new Treasury regulations issued and take the risk of beer and wine being prescribed in unlimited quantities by physicians, rather than permit the enactment of the Stanley amendment to their bill, which would impose severe penalties on officers and others who search homes, property and persons of citizens without warrants.

The House adopted a modified amendment which would have penalized the search of a home without warrant and which provided that a warrant should not issue except on evidence that liquor was being made "for sale." This provision, however, met neither "wet" nor "dry" approval in the Senate. The "wets" wanted protection extended to all property and persons, while the "drys" objected that the "for sale" clause would invite householders to install stills and to brew without limit.

FARMERS AND FREIGHT RATES (Altoona Mirror)

Appearing before the Interstate Commerce Commission, Secretary of Agriculture Wallace made a plea for consideration of the farmers of the nation. The commission is investigating freight rates on hay and grain.

Mr. Wallace contended that these rates are so high that they have seriously affected the farmers and unless some relief is extended production will be materially reduced, a situation that would be even worse for the people than for the agriculturists. He pointed out that the purchasing power of oats in Iowa is only 48 per cent of what it was from 1909 to 1914, while the purchasing power of other farm products is also below the average of other commodities.

The last increase in freight rates was designed to help the railroads, which were being operated at a loss. It was granted at a time when the country was still prosperous, although there were evidences of a slackening of the speed at which we were going. Now virtually all other business is complaining that the freight rates are too high and are demanding a revision downward. The railroads say they cannot reduce the rates if their expenses are to continue at the present figure.

Getting back to normal is a more difficult proposition than appears on the surface.

ONLY MORNING PAPER IN BUTLER SUSPENDED

Butler, Pa., Aug. 20.—The Butler Citizen, only morning newspaper in Butler county, suspended publication temporarily with yesterday morning's issue. The high wages of printers and present business conditions caused the temporary shutdown, according to a statement in the paper. The Citizen was founded in 1867 by the late John H. Negley as a weekly publication. In 1908 it became a daily and a stock company became owner. State Senator A. M. Christley is president of the company. The suspension was a

surprise, it is said, even to employees. No attempt at resumption will be made until conditions are more favorable, according to the owners.

Love Works Miracles.

The cure for all ills and wrongs, the cures, the sorrows and the crimes of humanity, all lie in the one word "Love." It is true the divine vitality that everywhere produces and restores life to each and every one of us, it gives the power of working miracles if we will.—L. W. Child.

A Monopoly.

We never know what the future has in store for us, and the worst of it is we can't go to any other store.—Boston Transcript.

BUSINESS AND TRADE

News of Local Interest
With Special Attention to Coal, Clay and Brick Trade

BUSINESS IMPROVEMENT

Conditions in July have all tended to confirm the belief that genuine business improvement is under way. Manufacturers in many lines are some times wont to express a sense of discouragement, however, because forward orders are not as heavy as they were during the late period of abnormal business activity. It is doubtful whether this is justified. Good business policy requires caution on the part of buyers. Failure to exercise it contributed to the difficulties from which the country is beginning to recover. Smaller orders for early delivery if received in sufficient amount to maintain operations on a reasonable basis are at this time an indication of a healthy condition.

Building.

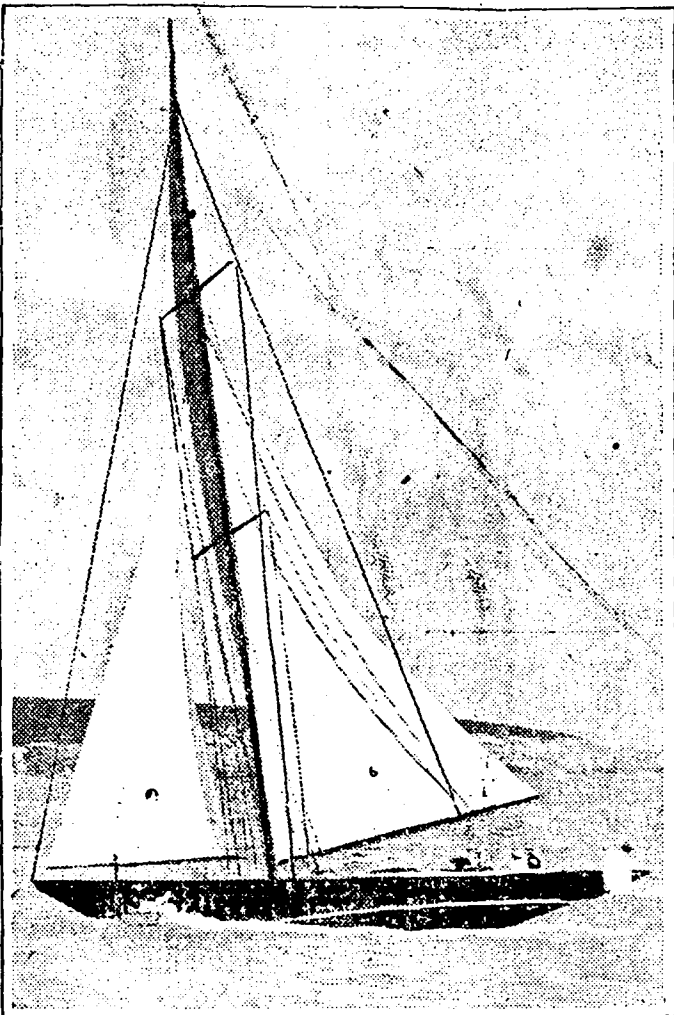

The fact that building operations have persisted in fair volume in the face of many adverse circumstances, is a most encouraging factor in the

general situation. Conditions at the opening of the current building season afforded little hope for a active year. Many materials have not come down proportionally with other prices, and in those lines in which price reductions at point of shipment have been severe, freight rates have prevented builders from realizing any great reduction in material costs. Labor continues high, and this together with the general uncertainty of the business outlook has had a depressing effect.

Nevertheless, operations for the first seven months, as measured by contracts awarded and permits issued indicate a restricted but a persistent building program, well maintained through July.

Although the normal seasonal decline is already being felt, the building activity of the current season is of much significance in justifying a confident expectation in a steady, if slow business recovery. It is a measure of faith in the future.

Winner of Astor Cup Race

Here's the Carolina, the Bermudian-rigged sloop which won the sloop event in the Astor Cup races at Newport, R. I. She was piloted by Skipper Adams who sailed the Resolute to victory over Sir Thomas Lipton's Shamrock. The Carolina is owned by Rear Commodore George Nichols.

A Big New Lemon.

A new lemon called the Ponderosa, is now being cultivated. It grows to the size of grapefruit and, although its flavor is rather mild, may be used in every way in which ordinary lemons are used.

Seen in the 's Blaze.

To see a bright star in the distance before retiring is a good omen and foretells that you will be successful in what you undertake. If it flickers and dies out before you turn your eyes away it signifies that you have lost an excellent opportunity.

A definite obligation!

THE spirit of the Prest-O-Lite guarantee, even more than the definite phrasing, is your greatest protection. It says, without ifs, Ands and Buts, that you, the car owner, Must Be Pleased!

This is the Company's pledge, and that of every Prest-O-Lite Service Station throughout the entire motorized world.

Further, human responsibility cannot go.

The Prest-O-Lite Battery uses less than one four-hundredth of its power-reserve for a single start—and the generator quickly replaces that.

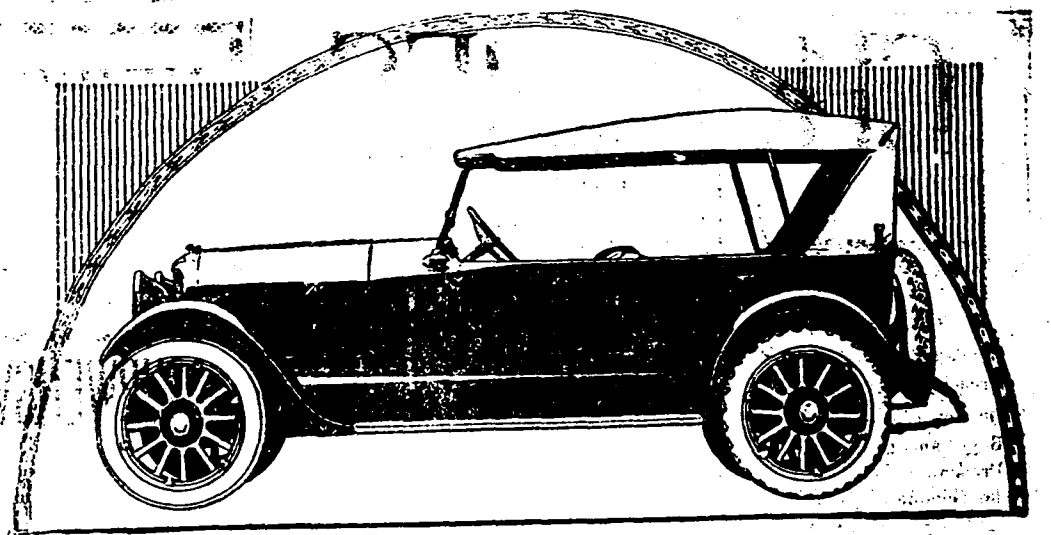

You naturally think of this high-grade, high-powered battery as high-priced. Our prices will correct any such impression.

'I want a CALORIFIC before I clean house again'

Hundreds of thousands of women, every spring and fall, must face the drudgery of house-cleaning.

They know that heating stoves and pipe furnaces fill their homes with dirt, and smoke up the curtains and wall paper, and they want to get rid of these out-of-date methods.

The patented Calorific Pipeless Furnace keeps the fuel, kindling and ashes in the basement—and thereby largely eliminates house-cleaning. With the Calorific, rugs, draperies, wall papers, stay bright and fresh a remarkably long time.

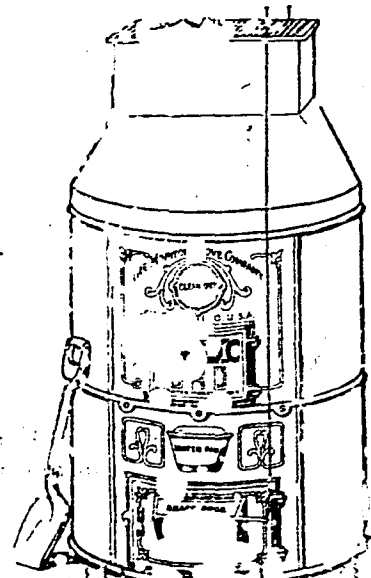

We sell the Calorific on the basis of "Satisfaction or money back." A splendid time to get a Calorific is just before you clean house. The next best time is just after you clean house, so that your house may stay clean.

See us at once and learn why over 125,000 families in every state in the Union, prefer the Calorific to any other method of heating.

The Function Of The Commercial Bank

Commercial Banking is the foundation of all banking. For the chief aim of modern banking is the fostering of industry and business, and that is the special sphere of the commercial bank.

Large industries cannot exist in a community without large banking facilities. The commercial bank serves its community in proportion as it fosters her industries.

The County National Bank is the oldest commercial bank in this section of the State.

It invites accounts of all classes and of all sizes.

The Epworth League will meet Friday at 8 p. m.

Alfalfa Came From Asia

Alfalfa is a native of Asia, but has been cultivated in Europe since before the time of Christ. The Spaniards introduced it into South America until some time between 1850 and 1900, when it was brought to California. Since then it has become the most extensively cultivated forage crop in the United States.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

Mrs. Amanda Segner, of Shippensburg, Centre county, is a visitor in the homes of Messrs. H. B. and W. A. Thompson.

Mrs. Amanda Laing and daughter, Miss Ella, came up from Harrisburg Thursday and are guests in the home of Mrs. Baer, on South Side.

The American Legion band, which accompanied the Rescue Hose and Ladder Company to Philipsburg on Thursday, was awarded second prize in the band concert.

The Rescue Hose and Ladder drill team refused to enter the contest at Philipsburg on Thursday, from the fact that the prize offered was not large enough, and was not through any fear of suffering defeat as some of the firemen from an obscure town alleged. There is no drill team in the district that can compete with the Rescue boys, when it comes down to business. There was no contest at all but the Patton firemen were awarded the prize, \$50, for an exhibition drill.

The American Legion ball team and the Pirates of DuBois were to meet on Athletic grounds this afternoon, the result of which came in too late to give details and the score. The Legion team has been reorganized and some new players appeared in the line up for the first time. It has been said that the game was a good one throughout.

Work in these parts looks sort of sealy for the laboring man for the winter, the indication being that none of the industries will do very much until spring.

Several farmers were in town yesterday with loads of potatoes, asking for a \$2.00 to \$2.50 per hundred for the same. They are anxious to get their product back home with them, consumers refusing to buy at that price.

It has often been said that Curwensville was a high price town to live in. It is, if one be allowed to judge from prices on produce and food stuff as quoted in advertisements in nearby towns, meat is especially out of range, from 3 to 5 cents per pound. Nearly all other groceries are lined up in the same proportion. This should not be.

MRS. OBENCHAIN IS SHIELDING "OTHER WOMAN"

Los Angeles, Cal., Aug. 20.—Madalynne Obenchain is shielding the "other woman" in the life of John Belton Kennedy, according to information gathered today by investigators for the prosecution.

In this connection the authorities were weighing Madalynne's statement that she can free herself of the charge of complicity in the killing of Kennedy any time she wishes to tell the whole story of what happened during the midnight murder.

Additional confirmation of the theory that Kennedy was shot by relatives of the "other woman" came today when Mrs. Antoinette Coan, aged invalid and confidant of Mrs. Obenchain, said she had admitted to authorities that Madalynne had told her of this mysterious woman.

SOME IMPRESSIONS OF PARIS TODAY

By CLARENCE AXMAN

(Written for the United Press.)

Paris. (By Mail).—"Paris is gay again; yes, monsieur, but it is not the Paris of before the war," said the wife of the Boulevard des Italiens banker. "The crowds flocking to the modistes, and jewelry shops of the Rue de la Paix are not the aristocratic set seen there a few years ago, but are the bourgeois of Lyons, Marseilles and other places in the provinces, new rich, who made tremendous fortunes in the war."

And yet to the visiting Americans Paris is the same old playground of the world that it was in the old days. Nothing is permitted officially to jar one being Paris on parade. Even the beggar is barred from the boulevards. Out on the Bois in the afternoon the tea places are crowded as never before. American tunes and American dances, and wiggling, twisting and flicking it is, see one, see all.

Paris is filled with Russian actors, bringing that must have come via the Argentine. A couple reaches a spot on the floor and five minutes later they have not progressed more than ten feet. The women are wonderfully dressed, with the smartest of hats, bracelets about their ankles, and dresses which would make Ziegfeld weep with envy.

Many of the men dancing are gigolos—professional tango lizards—with spats, sharply creased trousers, colored waistcoats and Piccadilly morning coats. They are the professional hangers-on. A gigolo approaches the wife of the American when she slips a dance, and asks if he can have the next. At its finish he expects a few francs.

A few months ago a story was printed in American papers that a French government official had decreed that women in French revues should wear more clothes. Probably he is on a vacation, because in two revues the entire apparel of the choruses could be placed in a tiny pocket-book. This sort of thing quickly pall on the American. In the case of Russian dancers, Russian singers, Russian noblemen and Russian radicals. The Russian vaudeville show at the Femina Theater is the best on the continent, and has taken Paris by storm, the great hit being the march of the "Wooden Soldiers." It is coming to Broadway next season.

ONE KILLED—50 ARE WOUNDED IN ATTACK ON KNOXVILLE JAIL

Knoxville, Tenn., Aug. 20.—One was killed and more than fifty wounded when a mob stormed the jail here last night, a check-up today revealed. The mob was bent on lynching Frank Martini, a negro, alleged assailant of Miss Jesse Parke, a young school teacher. The would-be lynchers crossed the dead line into the fire of authorities guarding the jail. The crowd included many women, some of them with babies in their arms. Two of those shot were women.

Even a 2000's Paradise. There is said to have nearly a quarter of a million professional beggars.

SHACKLETON AND EXPLORER BAND SAIL NORTH

London, Aug. 20.—(United Press)—Amid the cheers of thousands of well-wishers lined along the Thames embankment, and the frantic tooting of ships' sirens, the aptly-named Quest, commanded by Sir Ernest Shackleton, started today on the first leg of a 30,000-mile voyage of discovery in the uncharted seas of the frozen South.

Romance and science is bound up in this new adventure in the Polar regions. The journey will take Sir Ernest 30,000 miles in the Atlantic and Pacific oceans, and in the uncharted seas of the South Pole. The explorers are making for the Enderby Quadrant, the Antarctic, south of South Africa. Some ninety years have passed since a ship was in these waters.

The Quest will also search for the lost Pacific island of Tunaki, mentioned in missionary history and native legend, but never seen; in search also for secret seas, whose existence is believed but not proved.

TAPS SOUND FOR LAST TIME AT MT. GRETNA CAMP

Mount Gretna, Pa., Aug. 20.—Taps was sounded for the last time last night over the khaki-tented city here where 3,000 men of various units of the Pennsylvania National Guard have been quartered during the last two weeks, undergoing a strenuous tour of military duty. It also signified the end of the six-weeks' encampment, which has been the longest peace-time period of instruction ever held by this National Guard of this State at one time.

A Gas Tight Furnace

THE WATERBURY SEAMLESS PIPELESS FURNACE

is made of welded steel. There are no seams to develop leaks, no cast iron to crack and let out smoke and gas. It is an efficient, durable heating plant.

Stove heat is uneven and unsatisfactory. Stoves take up a lot of space in rooms—always the best rooms in the house. They mean ashes, dust, dirt and smoke all over the house.

Stoves are out of date. You want more than one or two rooms heated in winter. Stoves are so unsightly. Why keep them and be ashamed of your home when neighbors call?

The Economical Waterbury

goes into your basement; heats your entire home thru a single register. It will outlast many stoves. Costs less than other types of furnaces and burns fuel more economically.

The Waterbury fills your entire home with warm, moist, healthful air. It means better health, more cheerfulness in the home. Can be installed in a few hours time. Why not be proud of your home when neighbors call?

Call at our store and see this modern furnace. You will be surprised to learn how economically you can have modern, cheerful home comfort.

POLICE HOLD FOUR SHERIFF ASKS FOR RELIEF MEASURES IN RUSSIA ARE NOW UNDER WAY

Altoona, Pa., Aug. 20.—Railroad and postal authorities today placed three men under arrest here charged with the holdup of the Manhattan Limited, P. R. R. train on July 30 when John Lantz, mail clerk was shot.

The arrest of Gilbert McCloskey, alleged to be the fourth member of the gang, was made August 2nd. He is said to have confessed. The men are held in Blair county jail. George Lafferty of Juniata, Edward and Marion Yono, of Altoona are three taken in custody today.

Barnstable, Mass., Aug. 20.—Fearing a negro mob would storm his jail to rescue three Cape Verde negroes held there, Sheriff Rosenthal early today asked the commandant of Camp Perkins to rush more troops to the scene. He said he had been informed negroes in the "Jungletown" section were preparing to remove from prison the trio of Islanders who were arrested charged with attacking Miss Gertrude Butler.

A white mob has twice menaced the jail threatening to lynch the negroes.

Riga, Aug. 20.—American Relief started for starving Russia today. With the last vestige of disagreement between Litvinoff and Walter Lyman Brown, head of the American Relief administration removed by the signing of a contract containing 27 articles with actual pledges, orders went out from Relief headquarters here to start everything moving.

The FRANKLIN

ON any kind of a road the Franklin is a safe, easy-handling, smooth-rolling car.

In any weather it is a dependable, ever-ready, worry-free car.

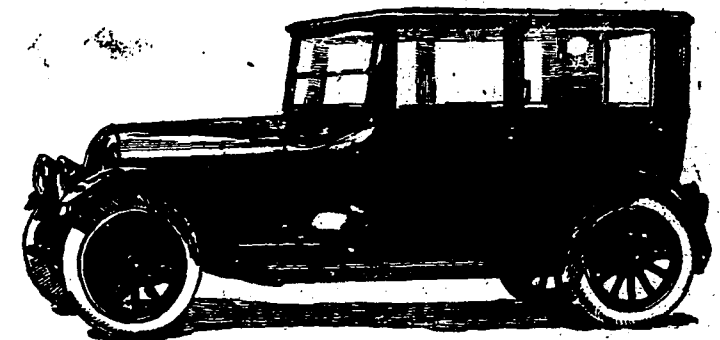

In the hands of any kind of an owner it is economical of fuel, easy on tires, and long-lived.

Outside conditions have no influence on the steady, satisfying performance it gives the year round. It represents practical, common sense economy without restriction of use.

20 miles to the gallon of gasoline
12,500 miles to the set of tires
50% slower yearly depreciation

Ford THE UNIVERSAL CAR

About Ford Cars---Solid Logic

The Ford car has been fundamentally right from the beginning. That fact made it "The Universal Car." It has always led in lowest first cost as well as in lowest cost to maintain and operate.

Runabout, Touring Car, Coupe, Sedan, Truck and Fordson Tractor—we have them all and will make reasonably prompt delivery.

Simplicity has ever marked the designing and building of Ford cars, trucks and tractors. Henry Ford and his engineers have always striven for simplicity with strength. The success of the Model "T" Ford car and a great part of the Ford Motor Company's success has come from an early understanding and appreciation of that principle in motor car construction. The fewer the parts in a car, the fewer the parts to go wrong. When that simple truth is carried out in producing a car, as it is in Ford cars, trucks and tractors, the result is bound to be a simplicity of design and building that means simplicity, durability and economy of operation.

This simplicity of construction proves itself in the ease with which Ford cars, trucks and tractors are driven. Four million five hundred Ford cars in daily service proves every claim we make.

More than ever we are sure the Ford car is your necessity—let's have your order today.

Fordson TRACTOR

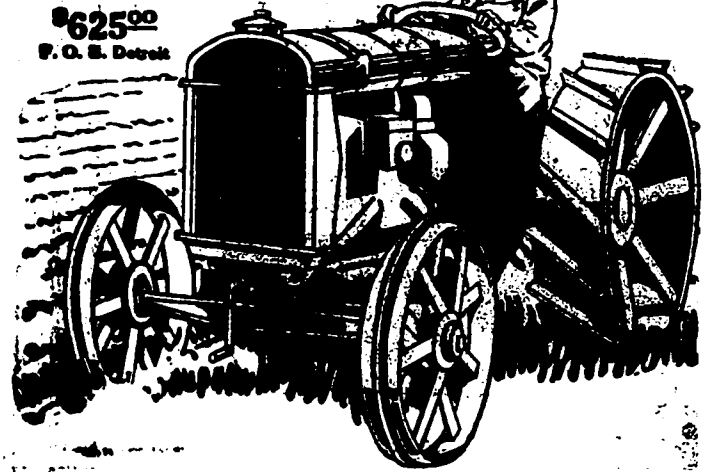

Do More in a Day Do It Better

One man with a FORDSON TRACTOR can do more work easier and with less expense than two men can do with horses. This means that you have a FORDSON TRACTOR can actually raise more crops, with less work and less expense. And this means that your profits will be greater with fewer hours of work.

Besides the FORDSON will take care of every power job on the farm. It is light, flexible in control and operation, yet it has power and endurance to spare. You should see the FORDSON at work to appreciate its wonderful capabilities. We will gladly give you the proofs if you will ask for them, either by a personal call, phone or post card.

New Gold Test

This machine provides a spectroscopic analysis of gold which measures the fineness of the metal more accurately than one part in a million. Electric sparks jump between two bars of gold. Photographs of the sparks are taken through a diffraction grating, showing the small, set particle of laser metal. This, at the Bureau of Standards.

Sheridan and Cumberland.
The story is told of Cumberland that he took his children to see "The School for Scandal" and when they laughed rebuked them, saying that he saw nothing to laugh at in this comedy. When this was reported to Sheridan, his comment was, "I think that confoundedly ungrateful, for I went to see Cumberland's last tragedy and laughed heartily at it all the way through."—Henry A. Byers in "The Connecticut Wits and Other Essays."

Popular Barber Of Cambridge Springs

Mr. B. Rodgers who has given scalp treatments in the leading Barber Shops of Pittsburgh says CRUDOLEUM has stood the test for years while other hair tonics have come and gone. He believes that there is nothing that equals CRUDOLEUM for preventing falling hair. He is giving CRUDOLEUM scalp treatments to many of his friends with very satisfactory results and the trade is increasing every day. Says soap and water alone can not eradicate dandruff. CRUDOLEUM is sold by Wm. M. Simpson Drug Co., Wilkensburg, Pa. MEN ASK YOUR BARBER FOR A CRUDOLEUM

CORN AND WHEAT CROP BIG

Harrisburg, Aug. 20.—Despite the unseasonable weather of the past summer, Pennsylvania's corn and rye crops will be far ahead of the average for the past ten years. Indications point to the state having a wheat crop this year that will be almost a million bushels ahead of last year and almost 3,000,000 bushels ahead of the average for the past ten years. These figures are contained in the crop report for August 1, submitted to Secretary of Agriculture Fred Rasmussen, today by L. H. Wible, Director of the Bureau of Statistics.

The report shows that the apple crop of the state will only be 17 per cent of normal, while the condition of the potatoes on August 1st indicated a yield of more than 2,000,000 bushels less than last year. The hay crop of Pennsylvania is also below the average for the past ten years while the amount of oats harvested is 11,000,000 bushels less than the crop of a year ago.

The reports on the wheat indicate an average yield of the entire state of 18 bushels per acre, as compared with 17.1 bushels a year ago. The total crop for the state this year is estimated at 27,370,000 bushels, as compared with 26,774,000 bushels last year and a ten year average of 24,422,900 bushels.

The prolonged droughts of June and July seriously affected the oats crop and the yield in the state this year is estimated at 33,840,000 bushels this year, as compared with 44,858,000 bushels a year ago, and a ten year average of 37,450,000 bushels.

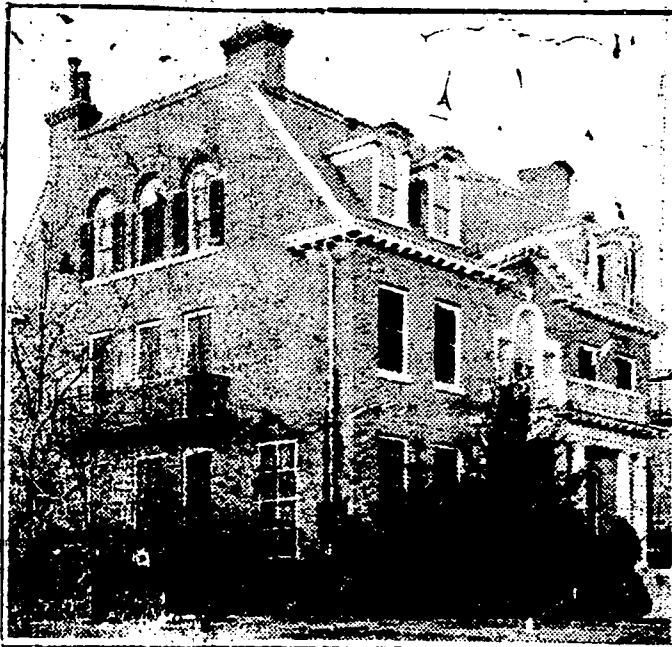

On August 1, the condition of the corn in the state indicated a total yield of 65,544,000 bushels as compared with 65,755,000 bushels last year and a ten year average of 61,457,000 bushels. The weather since August 1 has been highly favorable for the corn and it is believed that the crop will exceed the yield estimated at that time.

Adverse weather conditions have affected the tobacco crop and the estimated yield will be 52,304,000 pounds as compared with 57,912,000 pounds last year and a ten year average of 53,605,800 pounds.

The outlook for potatoes on the first of the month was not good and the entire crop of the state is estimated at 17,765,000 bushels as compared with 29,158,000 bushels last year and a ten year average of 24,534,000 bushels.

The apple crop is estimated at 4,161,000 bushels, compared with 20,825,000 bushels last year. The peach crop of the state is practically a failure, the yield this year being estimated at 279,000 bushels as compared with 1,621,000 bushels last year.

Chief Justice Taft's New Home

William H. Taft, chief justice of the Supreme Court, has bought this Washington residence from Alvan T. Fuller, Massachusetts representative.

CHARTER NOTICE

Notice is hereby given that application has been made to the Public Service Commission of the Commonwealth of Pennsylvania, under the provisions of the Public Service Commission Law by George Peters and W. T. Owens trading as the Peters and Owens Bus Line, for a Certificate of Public Convenience evidencing the Commission's requisite approval of the right to operate automobile buses as a common carrier on regular schedule between Philadelphia, in Centre County and Allport in Clearfield County. A public hearing upon this application will be held in the rooms of the Commission at Harrisburg on the 25th day of August, 1921 at 9:30 A. M. Local Time. Any person desiring to be heard in person or by counsel should appear at the hearing at the time and place specified. The undersigned are solicitors for the Peters and Owens Bus Line.

Last Picture of Caruso and His Family

This picture of Caruso, his wife and Baby Gloria was taken at Sorrento, Italy, just a day or two before the collapse which necessitated the operation ending in his death. At that time the famous tenor was in high spirits and seemed well along on the road to recovery.

SOUTH AMERICAN
TOURISTS WILL
VISIT NORTH

Rio De Janeiro, Aug. 20. (United Press.)—Despite the tradition in South America that Europe, especially the Latin countries of Europe contains all the delights attractive to the tourist, North America is beginning to attract attention among the South American travelers.

It was recently reported from Argentina that a number of Argentine tourists will make a trip to the

United States by way of the western coast of South America, through the Panama Canal to Cuba, and thence to New York. This party was scheduled to leave Valparaiso, Chile, on May 2. After landing in New York it was planned for the Argentine tourists to go by special train to various points of interest throughout the United States.

Plants in Bedroom

Do not have flowers or plants in the bedroom, particularly overnight. Poisonous gas is evolved from the roots and parts of flowers both by night and day, and from the green parts in addition at night. It is pleasant to have flowers in a guestroom, but for the reason just set forth they should not remain in the sleeping chamber. The way to get around the difficulty is by the use of a window box.

Should Never Have. Left Sarah. "My dear," said an old lady, "I feel I ought never to have taken the hot today. Scarcely had I set foot in my apartments when I was handed a telegram from Sarah. 'Parrot laid an egg Wire Instructions.'"

TWO SISTERS
GET HELP

Praise Lydia E. Pinkham's Vegetable Compound for what it did for Them

Hagerstown, Md.—"I was overworked and my monthly periods stopped. My body was swollen and I often had pains so I had to lie down. I was treated by a physician, but he did not seem to help me at all. My sister had taken your medicine with great results so I took Lydia E. Pinkham's Vegetable Compound and now I am able to work and feel like working. I have been recommending your medicine to my friends, and you are welcome to use my testimonial for I can never praise your medicine enough for what it has done for me."—RHODA E. CARBAUGH, R. R. 1, Hagerstown, Md.

Women will tax their powers of endurance to the limit before giving up, and it is then some womanly ailments develop and they have to give up entirely. When a woman suffers from such symptoms as irregularities, headaches, backaches, bearing-down pains, inflammation, nervousness and "the blues," it is well for her to profit by Mrs. Carbaugh's experience and try Lydia E. Pinkham's Vegetable Compound. It has restored multitudes of women suffering from just such ailments.

From the Saxon. Wife and woman spring from the same source, both being derived from the Saxon "weofan." Danish "weave," to weave, one who works at the loom. Dryden referred to Queen Anne as "a distaff on the throne." From the same idiosyncrasy our word spinster applied to an unmarried woman. While a woman was still spinning her wedding clothes she was simply a spinster; when she had finished and was married she became a wife who had already woven her allotted task.

Color Blindness

No fewer than 35 persons in every thousand are more or less color-blind. The commonest form is not, as many suppose, inability to distinguish red and green—that affects one person in 55. The most usual symptom is uncertainty between blue and green. This is experienced by one out of every 40 persons, but only one in 60 is unable to distinguish between brown and green. Color blindness is more common among educated than uneducated people, and an odd fact is that musicians are more liable to this affliction than are any other class or profession.

Curious Compromise. When South Africa became settled, ten years ago, a controversy as to the capital city was settled by one of the most curious compromises in history. Pretoria became the administrative and Cape Town the legislative center. So United South Africa has two capitals, which are almost exactly 1,000 miles apart.—Brooklyn Eagle.

Celtic Isle

The smallest dependency of France is the Ile d'Hoëlle, situated at the east of Brest. Its population is 238. They do not speak French, but Celtic. They are supplied with food at an inn managed by the women. The town has no streets.

Get Your Films For
Saturday Kodaking

Be sure that you have plenty of films for your Sunday trip. You'll want to take some pictures of the occasion and you won't want to be disappointed by not having a film left for the particular exposure that you want most. We have all sizes for the Kodaks. We also have plenty of film packs and plates for the popular sizes of kodaks. Of course the other things you need for making pictures are here in plentiful array.

The New Sphinx Hat

Decidedly sphinx-like is this suggestion of the newest Egyptian turban from Lewis, of Paris, shown at the retail milliners' fall show. This Egyptian chapeau is made of antique hatter's plush which has Osiris like wings in the back. From the sides fall, in true-to-type Egyptian sculpture folds, a black Chantilly veil which has been first drawn over the front of the turban.

**LONE AMERICAN ATHLETE WINS BIG RIO
TRACK MEET—ATHLETICS ARE POPULAR**

By MILES W. VAUGHN
(United Press Staff Correspondent.)

Rio De Janeiro. (By Mail.)—Participating under the colors of the Fluminense Football Club, Fred Nabor, Wabash College '20, took six first places in the inter-club meet for the Federal district, having previously established new national records in the shot-put and javelin throw during the club meet a few weeks ago.

Besides the javelin and shot-put, Nabor won the following events: High hurdles, 100 meters and pole vault. He was not entered in additional events, the six first insuring a victory for his club.

The American athlete has attained great popularity in Brazilian circles, the fact that he wears a Phi Kappa key contributing to his prestige. The Brazilian appreciates a good scholar even more than a good athlete.

"As Fine as Silk."

Some New York merchants were gathered around a luncheon table "talking shop." A silk merchant admitted conditions with him were "rotten," following which his right-hand neighbor, a leather dealer, remarked that his business was "as fine as silk."

—Boston News Bureau.

First Use of Music Notes.

It is not known exactly. In the first half of the Thirteenth century notes of definite length were introduced. The first real school of composition was in Flanders, William Du Fay being the first of the composers of this school. He was born shortly before 1400 and died in 1474.

**Fall Is A
Building Season**

There are yet several months of delightful construction weather. Fall furnishes time as winter proves the need of necessary buildings and improvements built of good materials into good structures.

You farmers will have time to look into the need of repairing your various farm buildings. Your stock and machinery need full protection from winter. It is especially practical to do this work now when so much lumber value can be had for your dollar.

Property owners throughout this community should inspect their roofs and relay where necessary with the most modern and satisfactory roofing materials.

We believe our services can be of much value to you at this time. Pay us a visit at the office.
